

M 6 0 M O D E N A

ELMWOOD M60 MODENA

Overview

The M60 MODENA is a 60 watt pure tube amp with two channels including separate EQ on each channel and with boost functionality on both channels. It's filled with top quality components and wrapped in the most beautiful design of red or dark stained birch. The sound and feeling of this amp will help you express everything from heaven to hell and it's 60 watts in Pentode mode are specially optimized to give you all the power you need. But the M60 MODENA can also easily be switched to Triode mode to reduce output power to about 30 watts.

The Elmwood team has used all of the experience from the 3100 and refined it into the M60 MODENA. This baby is a Must Hear!
